

We designed our website in 3 languages: English, Turkish, and Kurdish. English is due to being the global lingua franca, Turkish is due to being the national language, and Kurdish is due to being spoken by the natives.

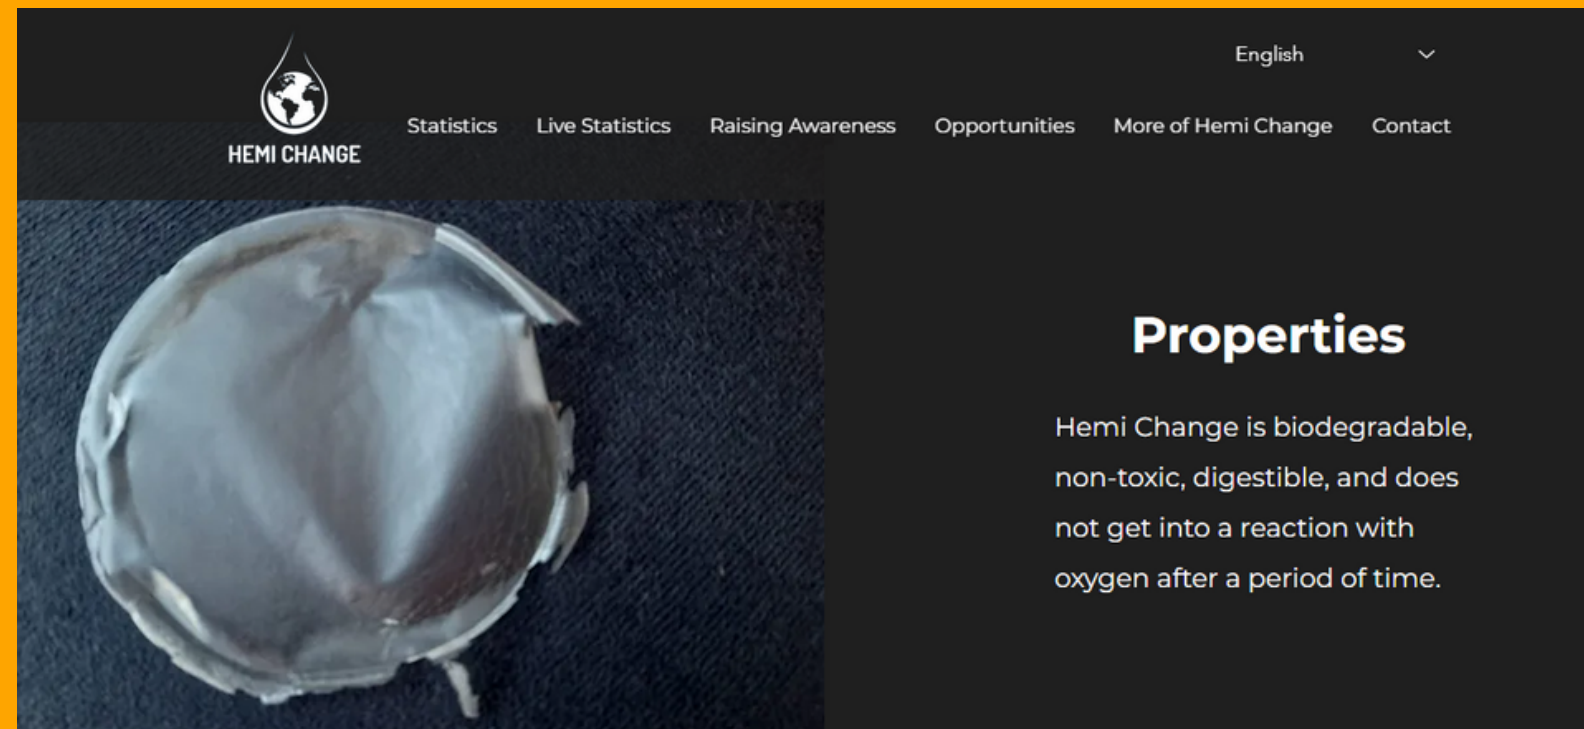

English - <https://www.hemichange.com>

Turkish - <https://www.hemichange.com/tr>

Kurdish - <https://www.hemichange.com/ku>

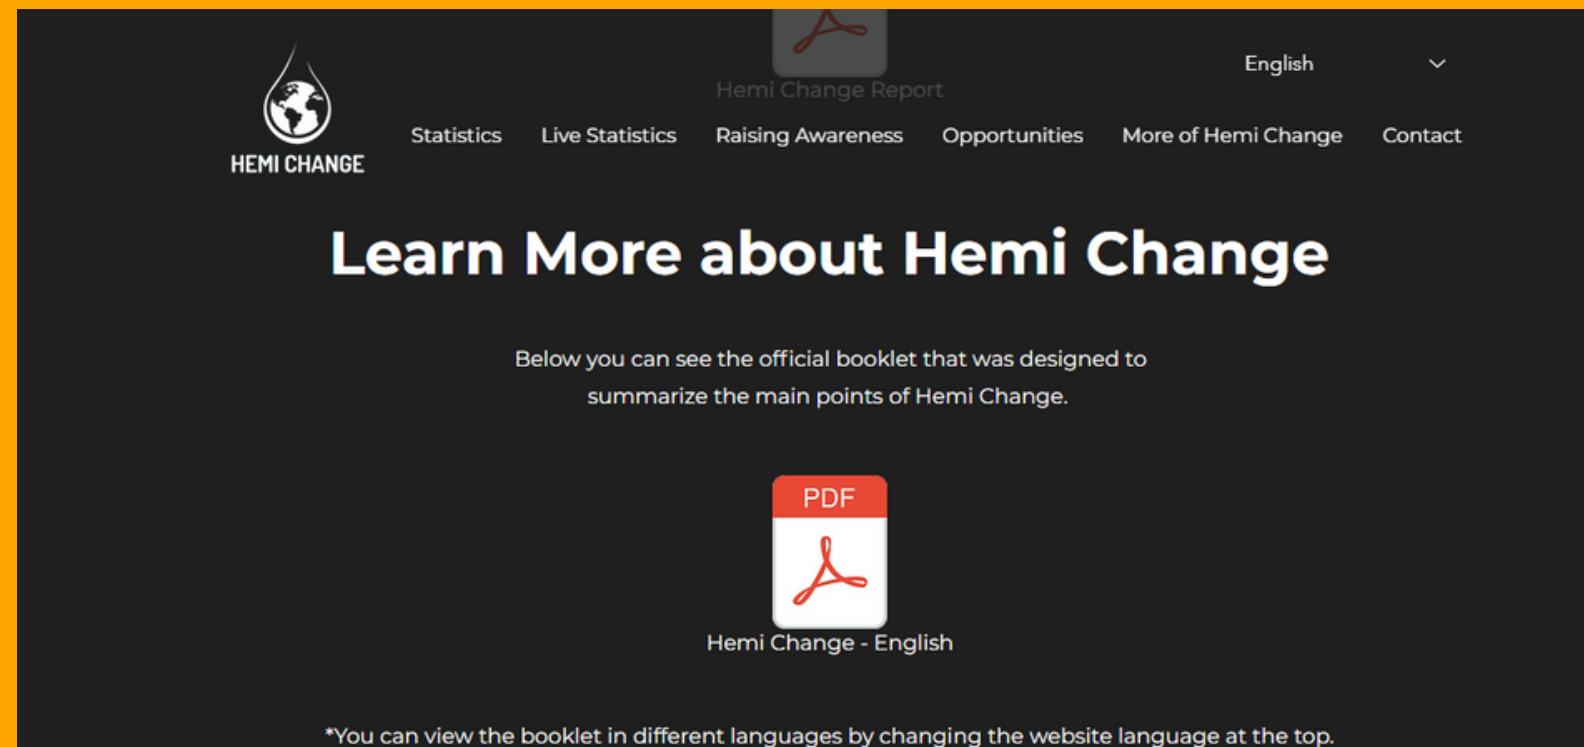

## Product

The Product page contains the basics of Hemi Change. Here, the features and properties of Hemi Change can be read while also checking the photos of the prototype.

## Additional

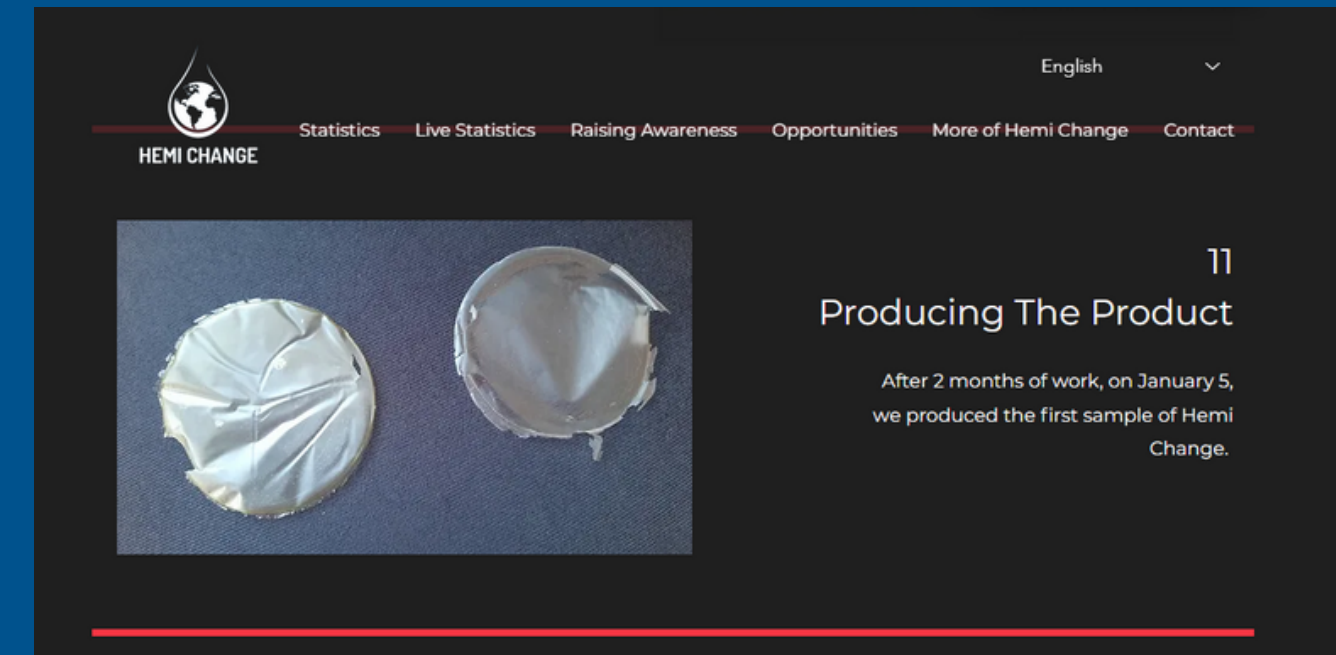

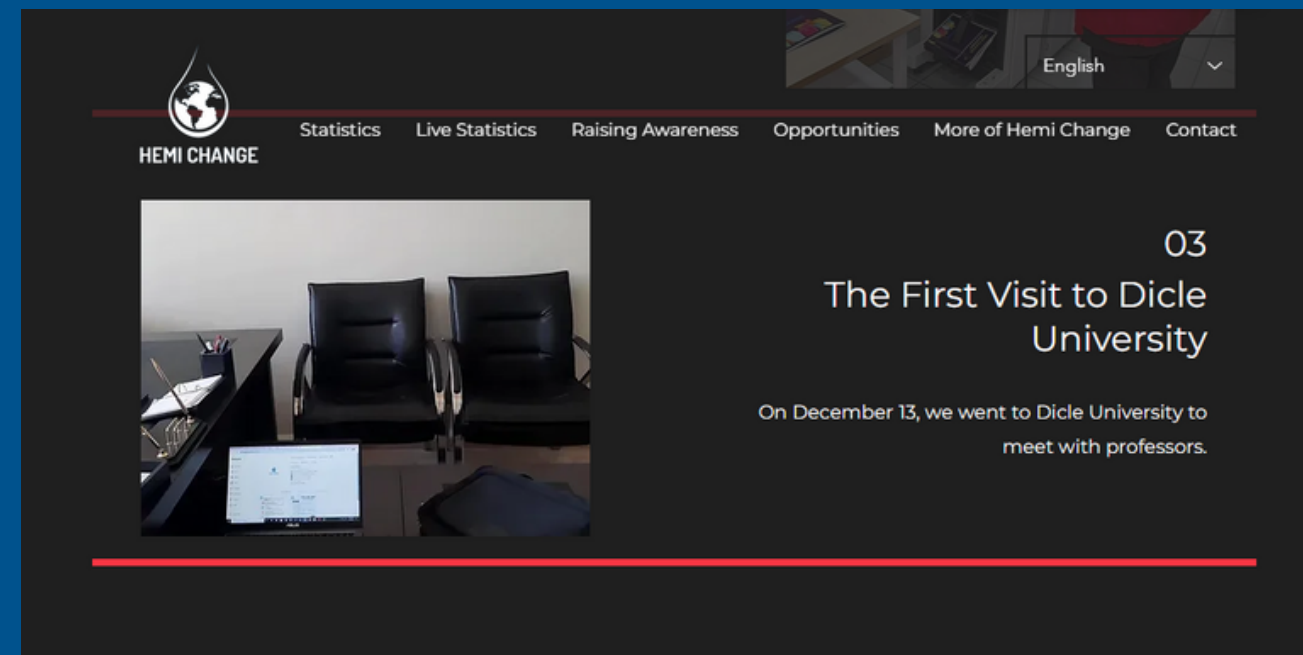

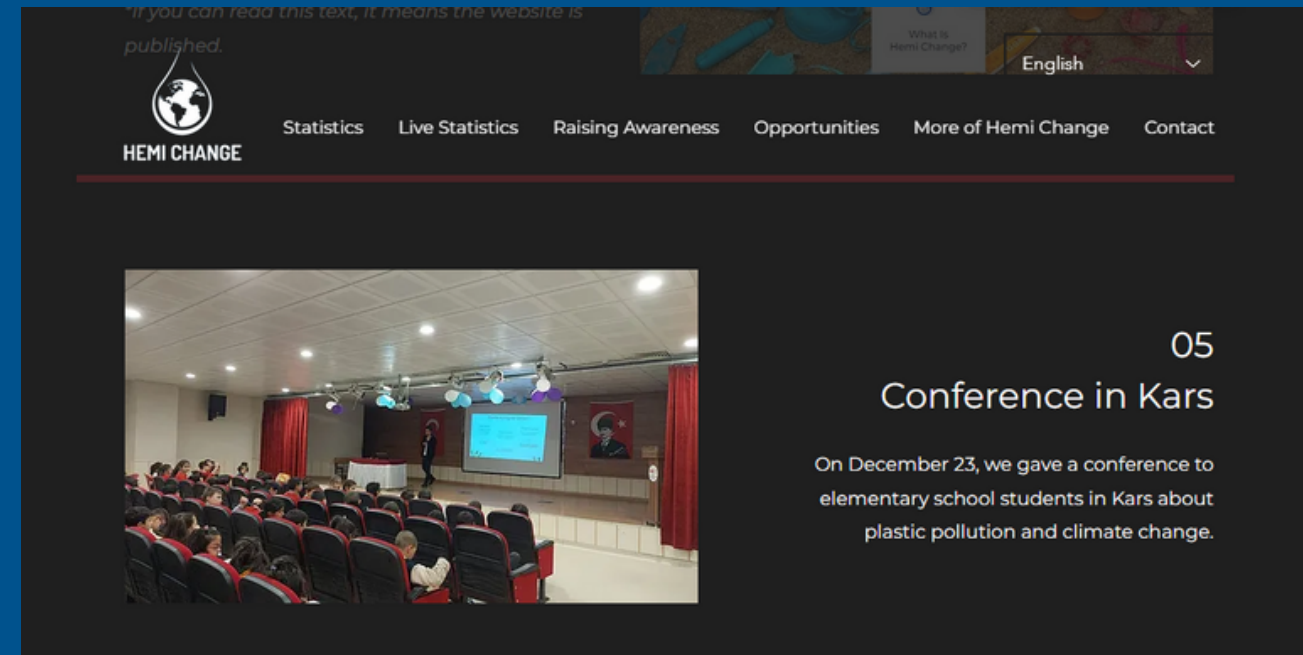

The Additional page is a more detailed version of the General Information page and includes the project report, the booklets, and the official patent application, all of which can be viewed and downloaded.

Product – <https://www.hemichange.com/product>

Additional – <https://www.hemichange.com/additional>

# Our Work

On the Our Work page, we list everything we have done so far under the name of Hemi Change: from conferences to the development stage of the product and from our visits at Dicle University to expert meetings, everything can be found on the Our Work page. The page is continuous with new activities being added to the list.

Our Work - <https://www.hemichange.com/our-work>

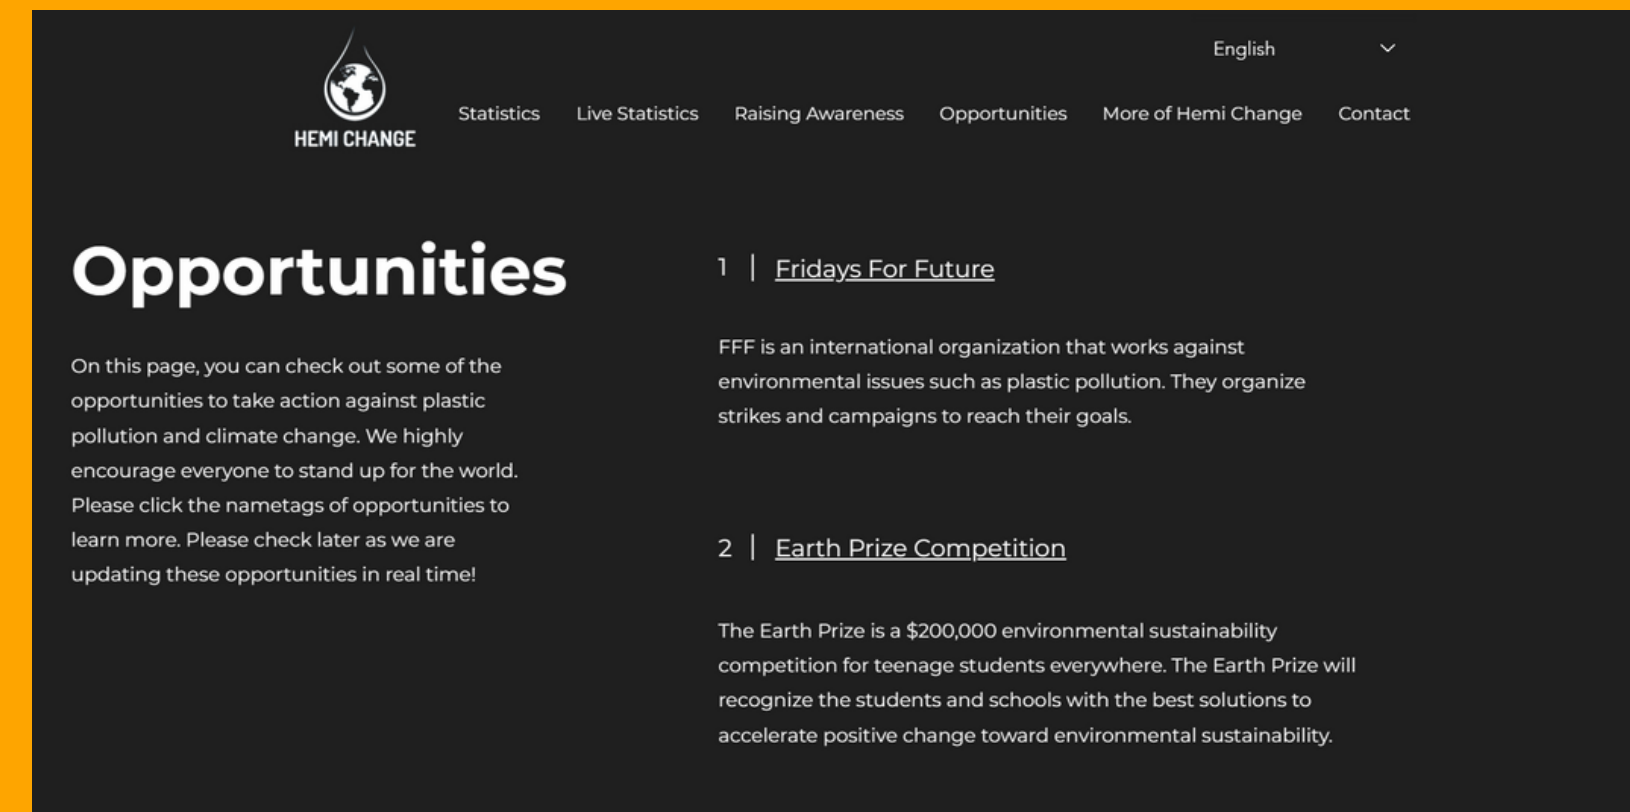

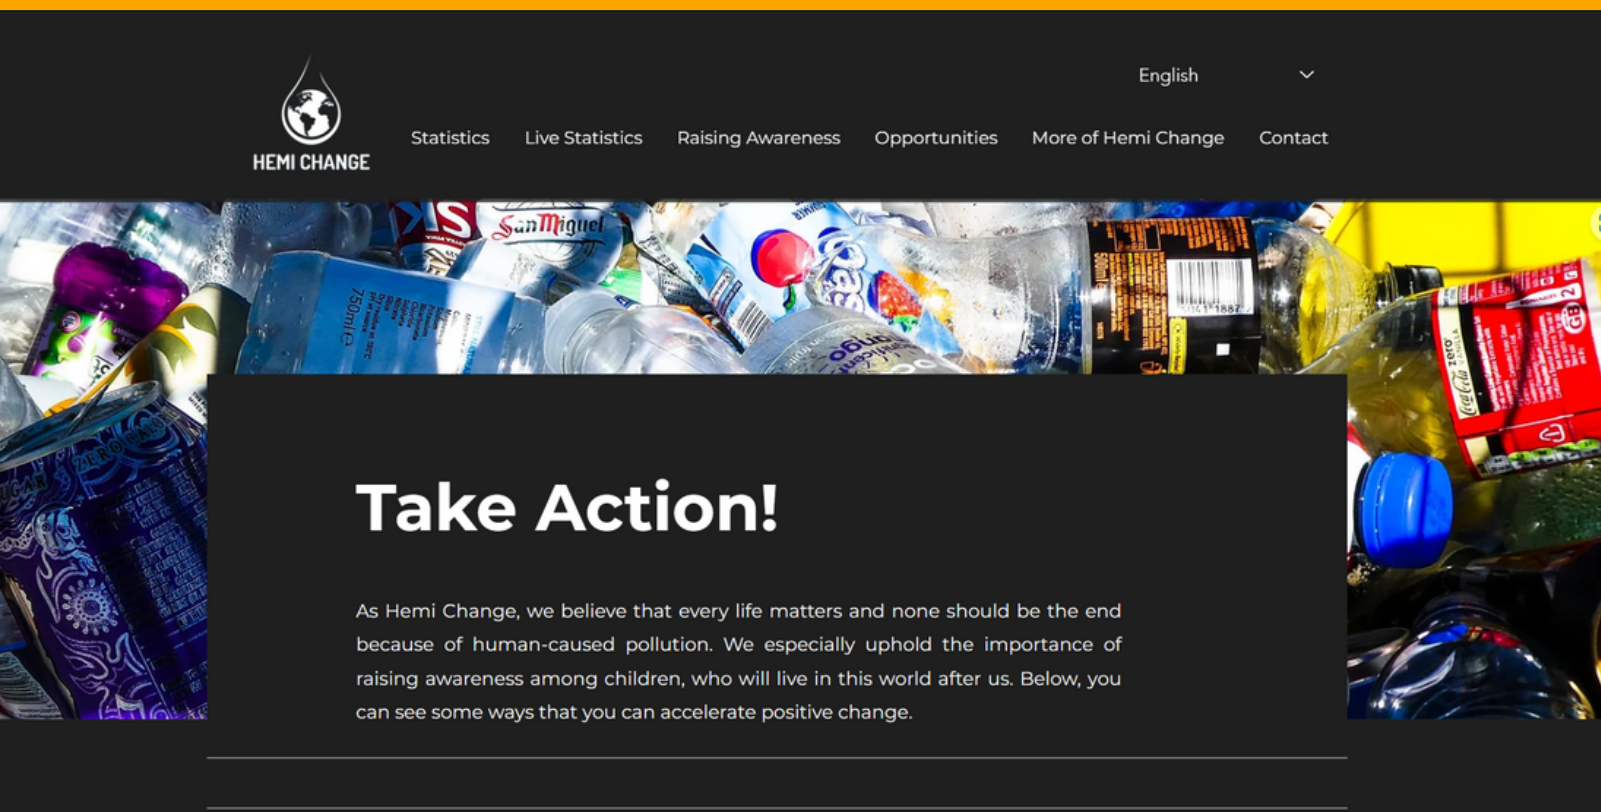

# Raising Awareness

Hemi Change started as an idea in 2022, and since its creation, we have reduced our carbon footprint. Now, we are organizing conferences, and making activities with children in schools deprived of opportunities to raise awareness among communities and help them reduce their carbon fingerprints.

# Opportunities

As Hemi Change, we highly encourage everyone to stand up for the world. There is a link attached below that will transfer you to a website where you can learn more about the opportunities to take action against plastic pollution and climate change!

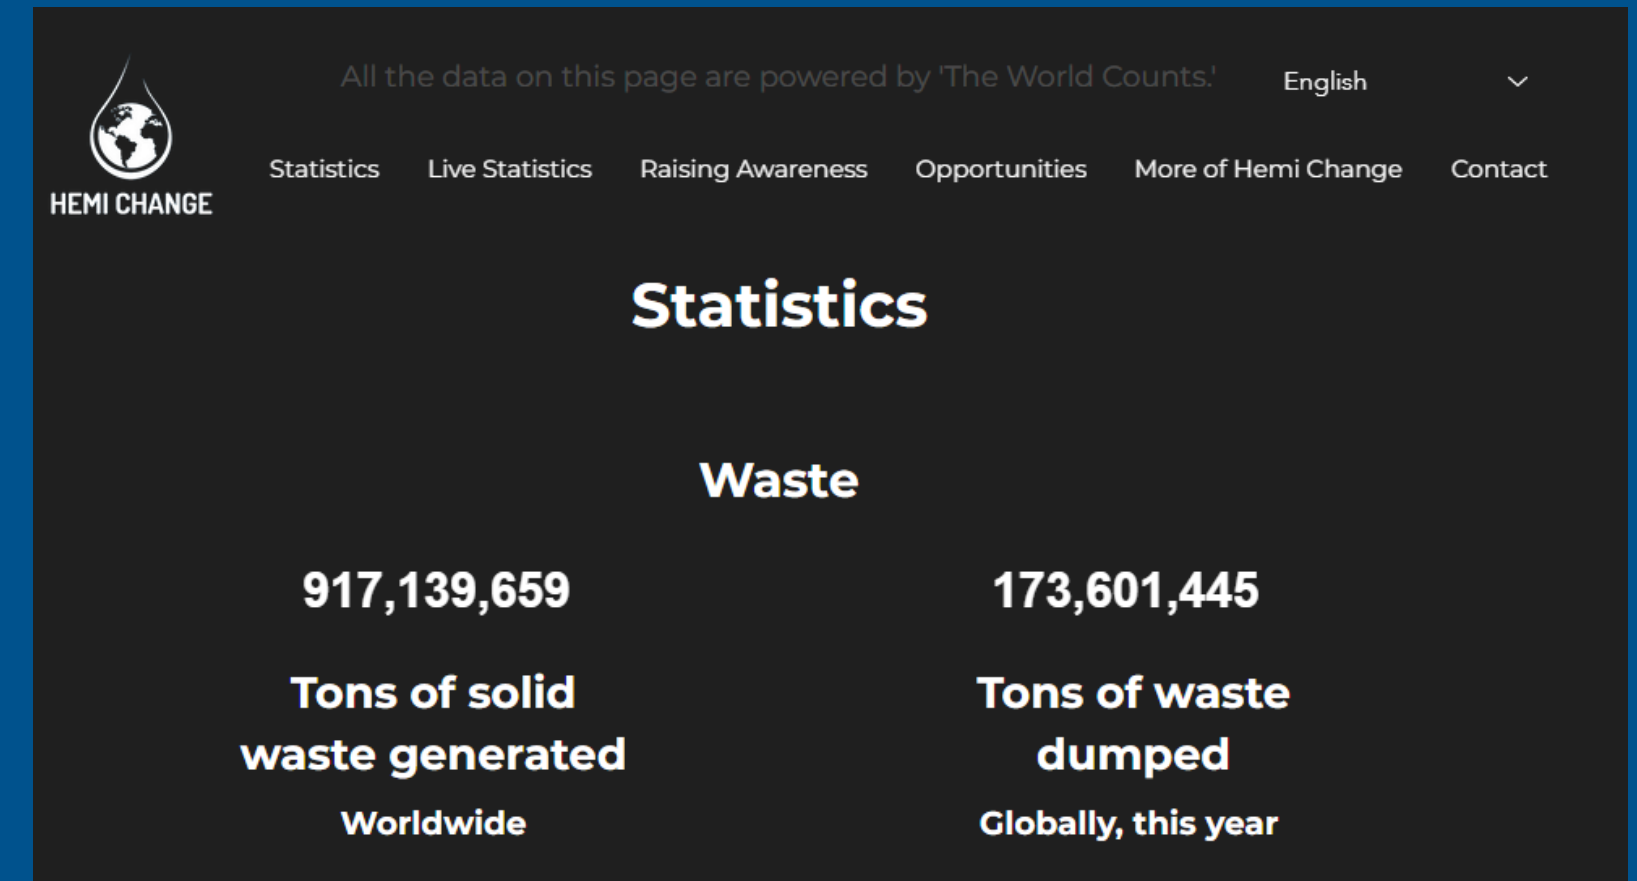

Raising Awareness - <https://www.hemichange.com/raising-awareness>

Opportunities - <https://www.hemichange.com/opportunities>

# Statistics

# Live Statistics

On our website, we accommodate statistics about plastic and climate change. On the first page, the data are fixed with numbers showing the situation our world is in; on the second page, the data is constantly changing with the power of HTML, keeping the track of the world's resources.

Statistics - <https://www.hemichange.com/statistics>

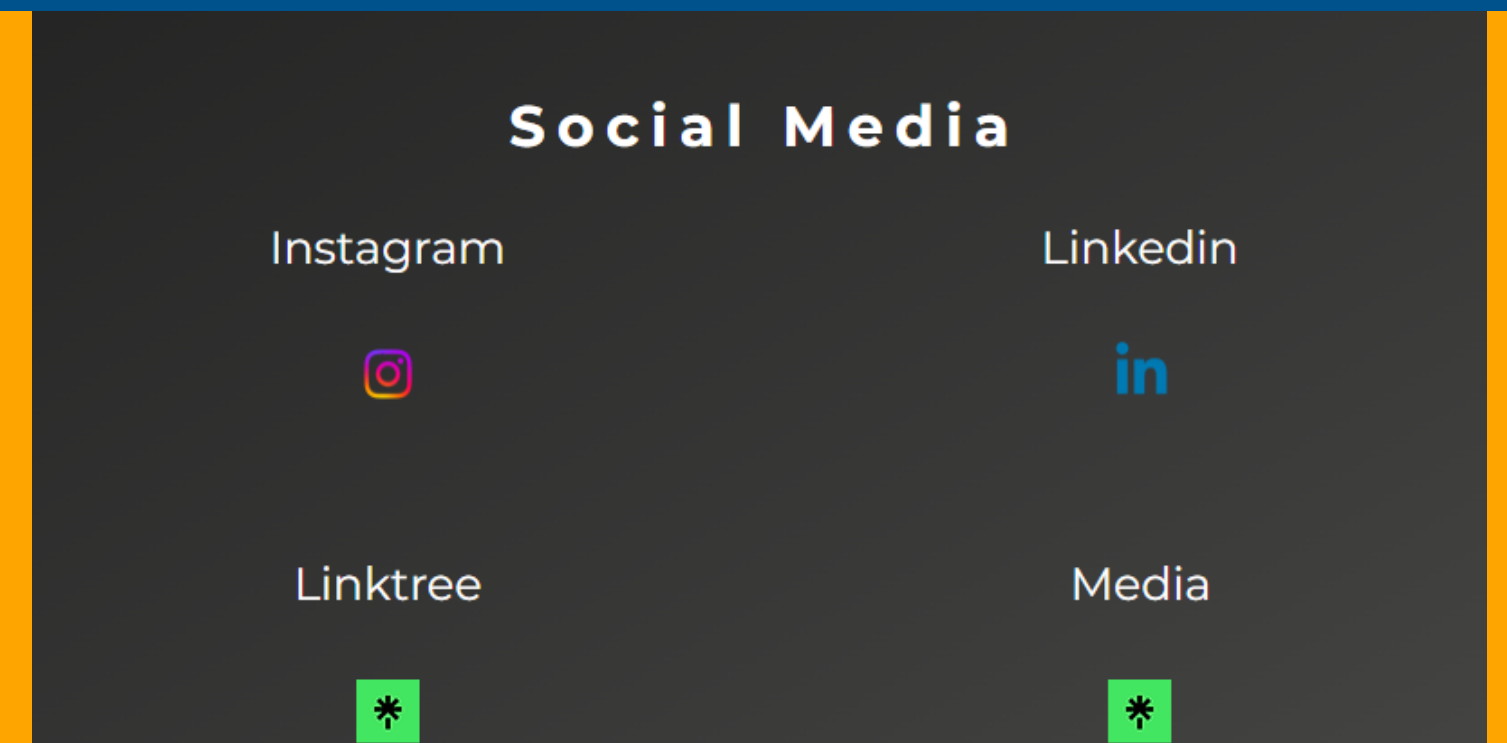

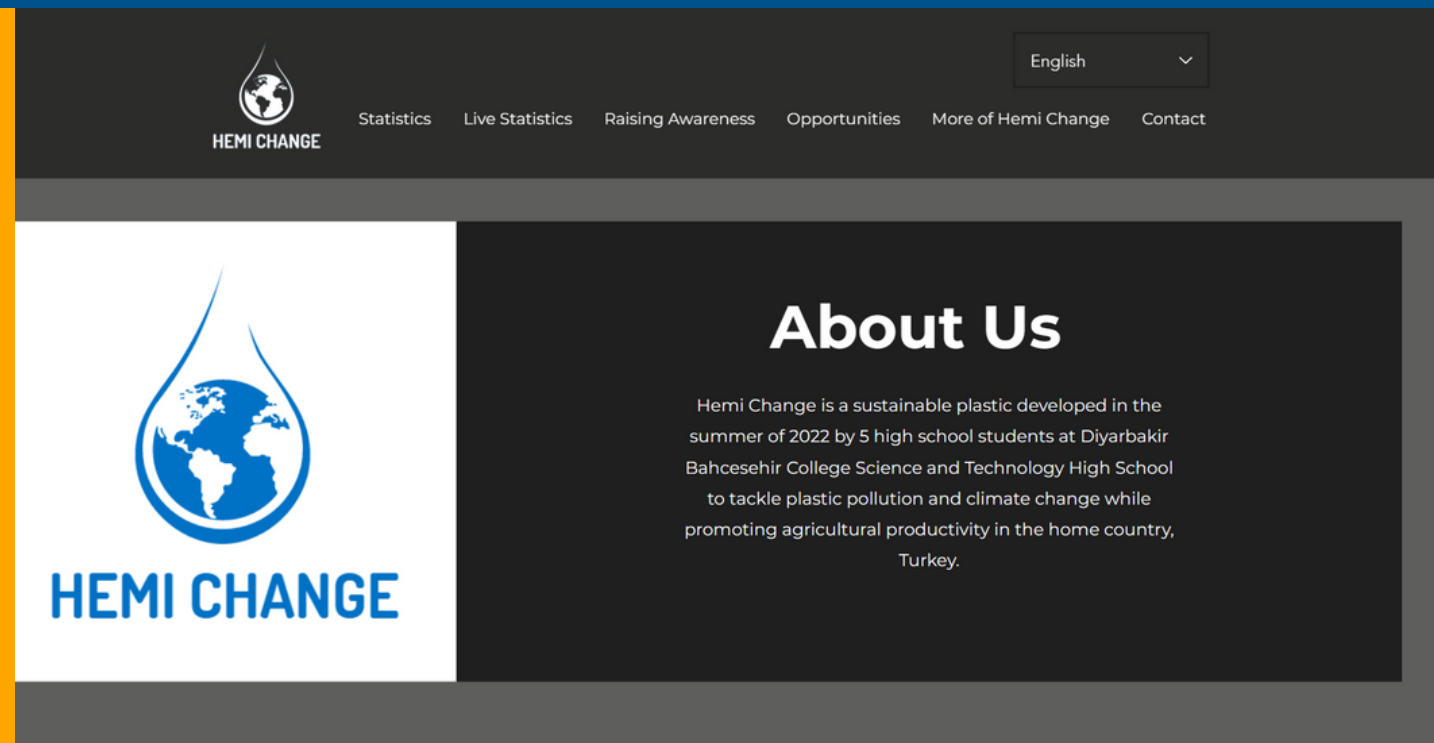

Live Statistics - <https://www.hemichange.com/live-statistics>

# About Us

Hemi Change is a sustainable plastic developed in the summer of 2022 by 5 high school students at Diyarbakir Bahcesehir College Science and Technology High School to tackle plastic pollution and climate change while promoting agricultural productivity in the home country, Turkey.

# Contact

For the Contact page, you can get in contact with us through our Instagram, LinkedIn, and linktree accounts.
